

GAZA BOARD OF PEACE

The implementation of this Roadmap, including the issue of weapons and other articles of the comprehensive peace plan, shall create appropriate conditions for a credible pathway towards achieving Palestinian self-determination and statehood.

GAZA DISARMAMENT PLAN

Joint Statement Regarding the Disarmament Plan

The Board of Peace has announced a breakthrough on the critical issue of Hamas disarmament and transfer of authority to NCAG in exchange for IDF withdrawal, laying out a way forward for the Gaza Strip and for the Israeli-Palestinian conflict as a whole.

The agreement explicitly frames the specific phases as key steps in a broader process towards the realization of Palestinian self-determination and statehood.

We welcome this direly needed opportunity to break the current diplomatic and security deadlock, replace Hamas with unified, legitimate Palestinian leadership, and create the fundamental conditions for a two-state solution that will bring long-term peace and stability to Palestinians, Israelis, and the region at large.
